

# **Stop Chasing Payments. Start Getting Paid.**

Your AI-powered accounts receivable on autopilot.

# Late payments are more than an inconvenience. They're a growth killer.

## Wasted Hours

Countless hours lost to manual follow-ups, spreadsheet tracking, and sending repetitive emails.

## Strained Cash Flow

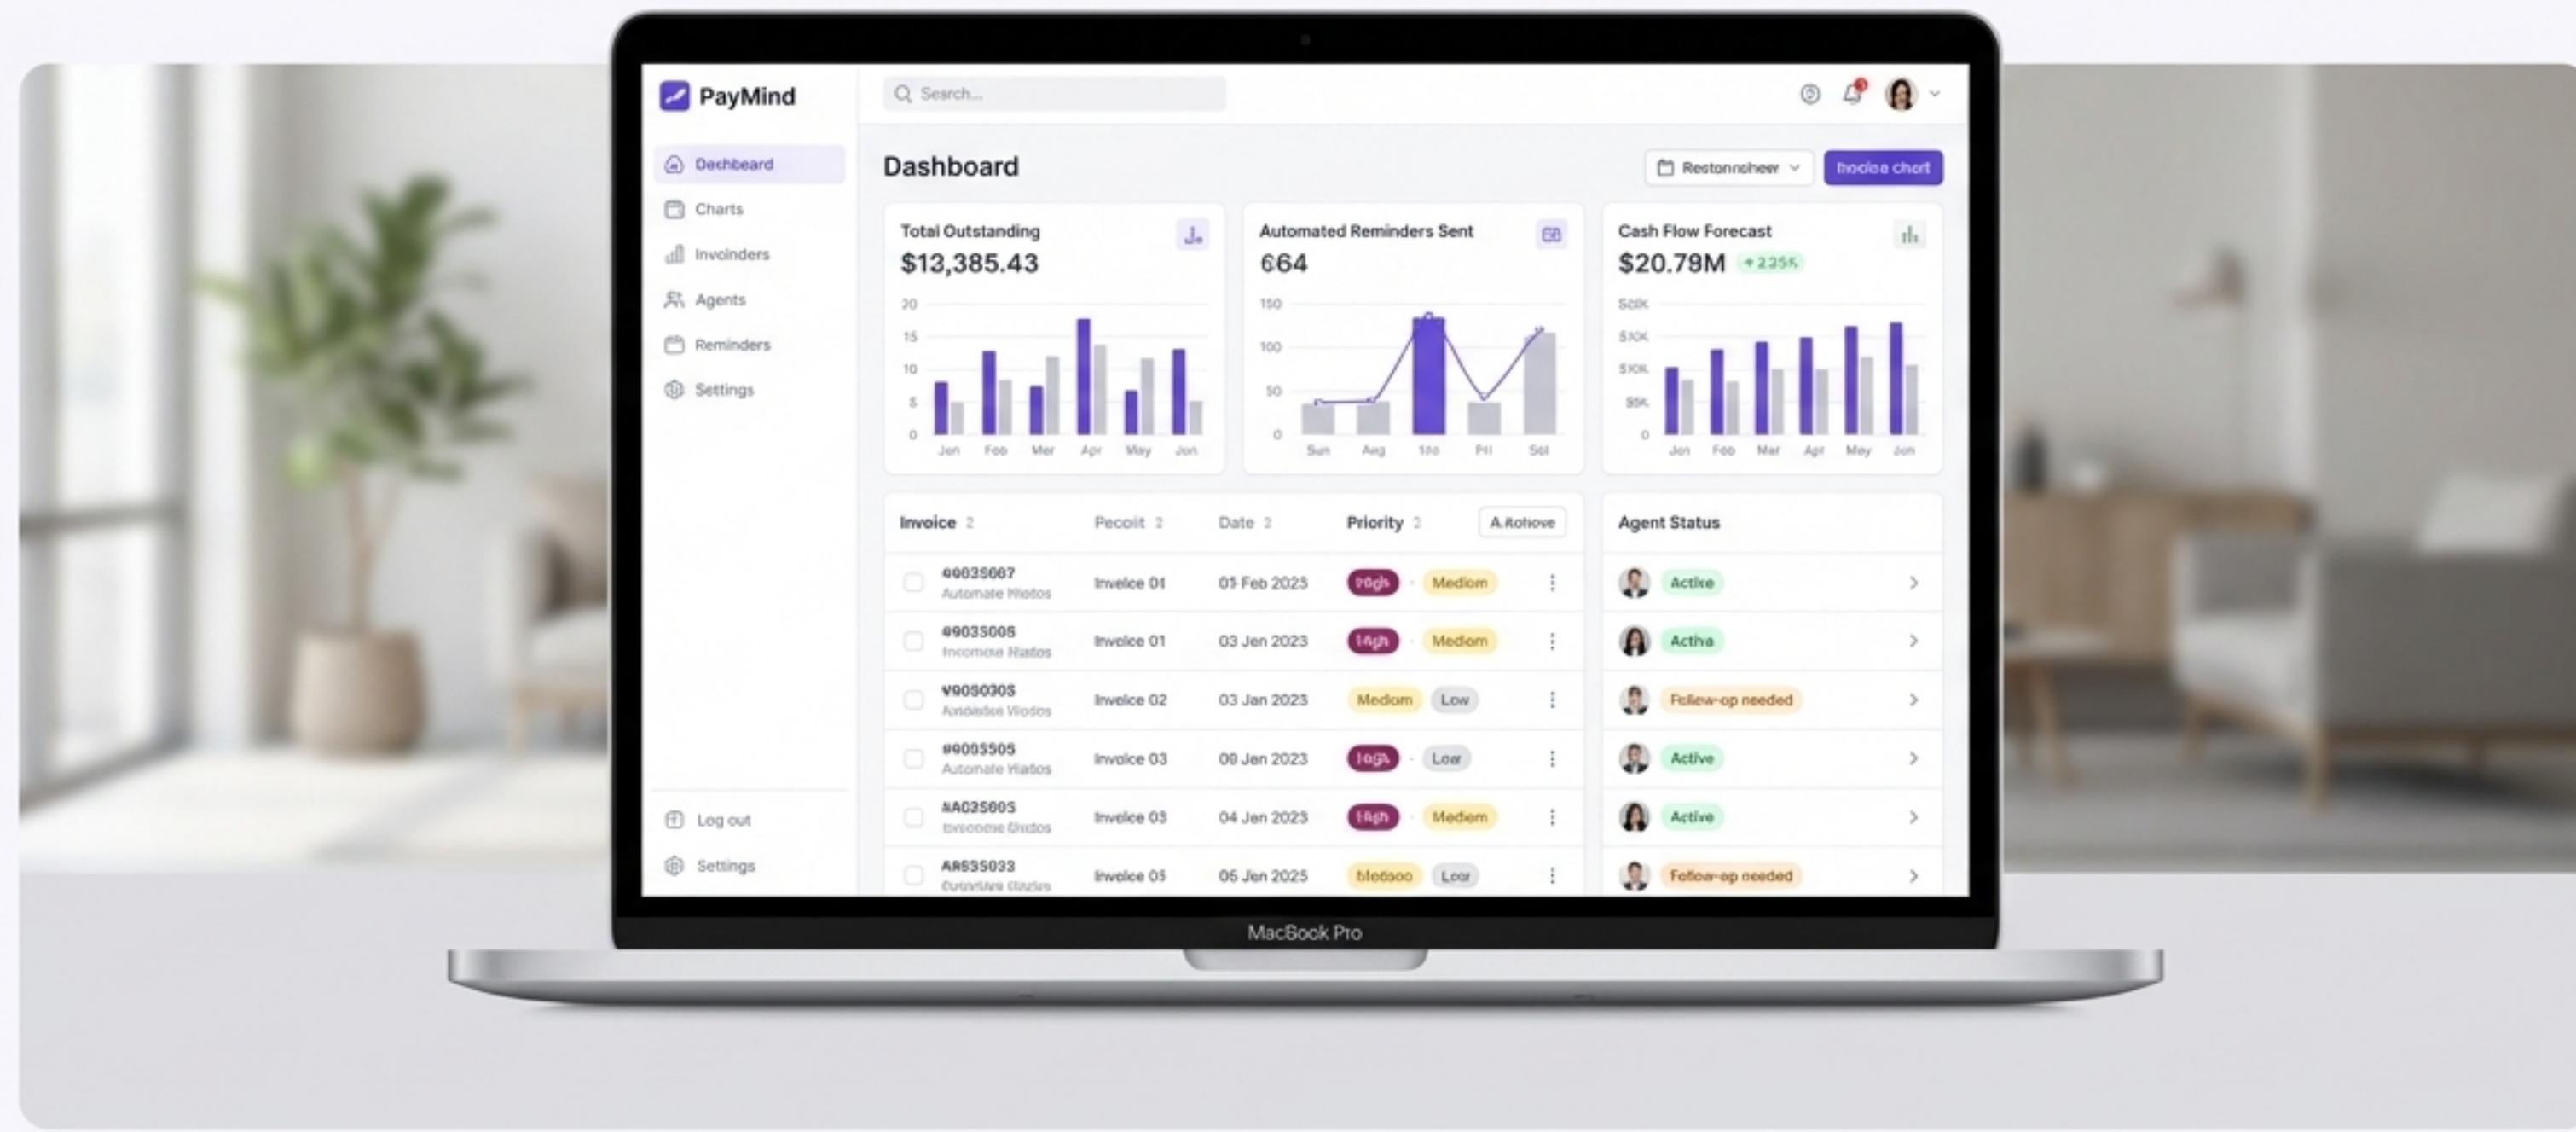

Unpredictable revenue cycles that halt hiring, delay projects, and put your business at risk.

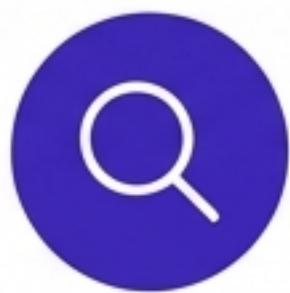

## Damaged Relationships

Awkward, persistent conversations that turn valuable customer relationships into transactional disputes.

# Introducing PayMind. The intelligent system that automates your entire payment reminder workflow.

# How It Works: Your Personal AI Accounts Team

## 1. The Analyst (Payment Monitor)

AI scans your invoices (from a simple CSV), identifies overdue payments, and prioritizes accounts based on risk and value.

## 2. The Communicator (Reminder Generator)

AI crafts and sends personalized reminders—formal emails, concise SMS, or friendly WhatsApp messages—at the perfect time.

## 3. The Negotiator (Response Handler)

AI analyzes customer replies, understands intent beyond keywords, and suggests the next best action to your team.

# The Analyst: Never Miss a Critical Invoice.

Unsorted Invoices

Sorted & Prioritized

● **\*\*HIGH\*\***

Invoices >90 days overdue OR over a significant threshold (e.g., >€1,000).  
**Action:** Immediate, personalized contact.

● **\*\*MEDIUM\*\***

Invoices 60-90 days overdue.  
**Action:** Structured follow-up within 48h.

● **\*\*LOW\*\***

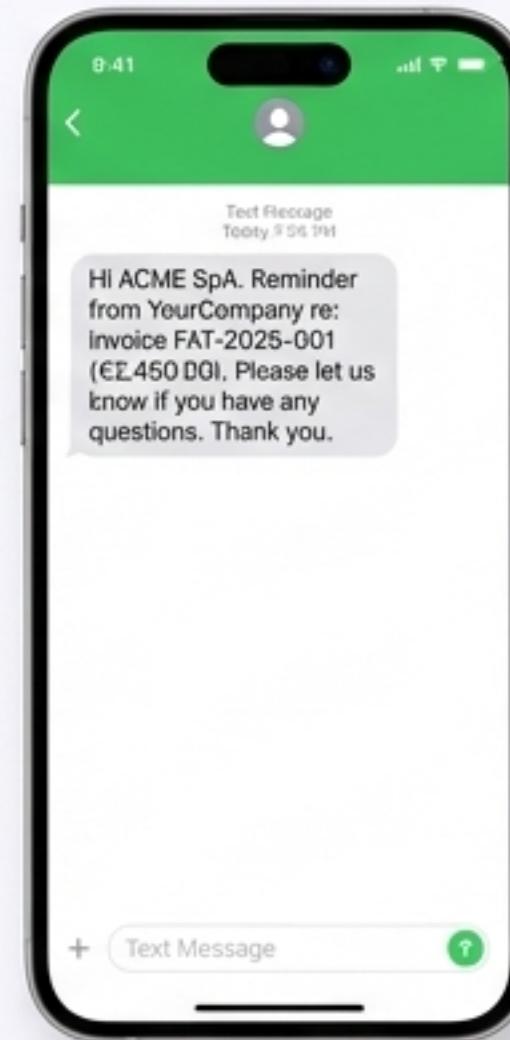

Invoices <60 days overdue.  
**Action:** Standard automated reminder sequence.

PayMind's Payment Monitor agent analyzes your CSV, calculates priority, and segments customers so you always know where to focus.

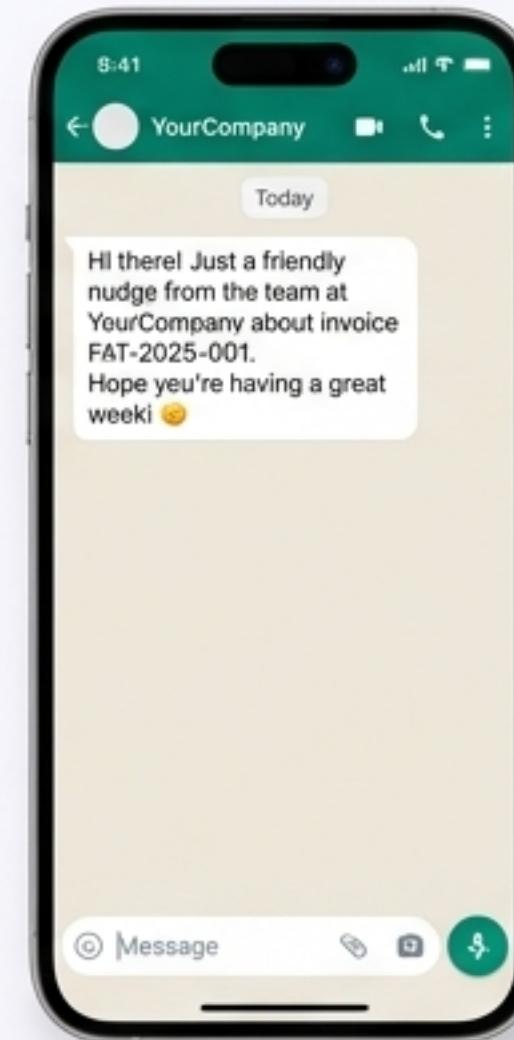

# The Communicator: Reach Your Customers Where They Are.

**Formal Emails**

**Concise SMS**

**Friendly WhatsApp**

The Reminder Generator agent crafts channel-specific messages designed for maximum response rates.

# The Negotiator: Go Beyond Keywords. Understand Intent.

So sorry for the delay, our accounts team was on leave. I will get this paid by Friday!

PayMind

Intent Promise to Pay

Sentiment Positive

Suggested Action

Acknowledge reply and schedule automated follow-up for Friday PM.

Our advanced NLP analyzes responses for intent recognition and sentiment analysis, providing your team with clear, actionable insights and even a draft response.

# Your Mission Control for Cash Flow.

**Real-time Workflow:**  
Watch the AI agents process your invoices from analysis to resolution.

The screenshot displays the PayMind software interface, which serves as a mission control for cash flow management. The interface includes a sidebar with navigation links like Home, Dashboard, KPIs, Invoices, Negotiator, and Settings. The main area features a Dashboard with three key visualizations: 'Monthly Collections' (stacked bar chart), 'Invoice Status' (donut chart), and 'Customer Response Rate' (donut chart). Below the dashboard is a 'Meniers' section showing 'Real-time Agent Workflow' for three agents: Analyst Agent (Complete), Communicator Agent (Running), and Negotiator Agent (Pending). To the right is an 'Invoice List' table showing details for seven invoices, including ID, Customer, Amount, Due Date, and Status. Further right is a 'Communication & Outputs' section displaying an email reminder to ACME SpA and a 'Customer Response Analysis' summary with a recent reply and neutral sentiment. The top right corner of the interface includes settings for Dark/Light Mode, Bilingual (IT/EN) support, and user profile information.

**Real-time Agent Workflow**

- 10:32 AM - Analyst Agent: Complete  
Completed Invoice FAT-2025-001 analysis.
- 10:33 AM - Communicator Agent: Running  
Running, generating reminder for ACME SpA.
- 10:34 AM - Negotiator Agent: Pending  
Pending, waiting for customer reply.

**Dashboard**

**Monthly Collections**

Month	Mtents	Invoice	Comosite	Total
Jan	5,000	8,000	7,000	20,000
Feb	9,000	10,000	9,000	28,000
Mar	12,000	8,000	7,000	27,000
Apr	14,000	7,000	7,000	28,000
May	16,000	10,000	7,000	33,000
Jun	18,000	12,000	7,000	37,000
Jul	15,000	10,000	7,000	32,000
Aug	19,000	11,000	7,000	37,000
Sep	21,000	13,000	7,000	41,000
Dec	23,000	14,000	7,000	44,000

**Invoice Status**

Status	Count
Mtents	10
Invoice	10
Comosite	10

**Customer Response Rate**

Category	Percentage
AR	60%
Customer Response Rate	40%

**Invoice List**

Invoice ID	Customer	Amount	Due Date	Status
F1-2025-001	Customer	\$400.00	2025-10-15	Complete
F1-2025-002	ACME SpA	\$400.00	2025-10-18	Complete
F1-2025-003	Customer	\$250.00	2025-10-18	Complete
F1-2025-004	ACME SpA	\$450.00	2023-10-18	Complete
F1-2025-005	ACME SpA	\$300.00	2025-10-18	Complete
F1-2025-006	Customer	\$700.00	2023-10-15	Complete
F1-2025-007	ACME SpA	\$350.00	2023-10-15	Complete

**Communication & Outputs**

**Subject**  
Reminder: Invoice FAT-2025-001.  
Dear ACME SpA,  
This is a friendly reminder to your payment confirmation. Please review and respond to the attached invoice now.  
Sincerely,  
ACM

**Customer Response Analysis**

**Recent reply**  
Thank you for your prompt response. The customer has responded to the message and will attach a file to the message later.  
**Sentiment:** Neutral  
**Suggested Action:** Schedule follow-up

**Dark/Light Mode**

**Bilingual (IT/EN)**

**At-a-glance Metrics:** Key AR insights, visualized.

**Agent Outputs:** Instantly review generated messages and response analysis.

# The PayMind Advantage

## Autonomous AI Team

Our 3-agent system collaborates to manage the full collections cycle, from smart prioritization to intent analysis. It's a team, not just a tool.

## Adaptive Communication

Personalized, multi-channel outreach (Email, SMS, WhatsApp) meets customers on their terms, leading to faster payments and better relationships.

## Blazing Speed

Turn days of manual administrative work into seconds of automated, intelligent workflow. Upload a CSV and let the agents do the rest.
